Summary :

Aspiring Web Developer with MERN stack skills and hands on experience through personal frontend and backend projects.

Technical Skills :

- **Frontend:** JavaScript (ES6+), React js,
- **Backend**: Node js, Express js,
- **Version Control & Tools:** Git, GitHub, Postman , VS Code

Projects:

Subhyatra – Online Ticket Booking System

Tech Stack: MERN (MongoDB, Express.js, React.js, Node.js), Stripe, JWT, Multer

- Frontend: Built responsive interfaces with React.js, added protected routes, role-based access, Stripe payments, and custom CSS styling.
- Backend: Created RESTful APIs using Node.js and Express, implemented JWT auth, MVC structure, and file uploads with Multer.
- Database: Designed MongoDB schemas with Mongoose, managed bookings and availability, and maintained smooth data relationships.

Education:

Nazira College, Sivasagar, Assam | B. Voc in Information Technology | July 2022 to May 2025
